

APPENDIX

Gullög C. Nordquist and Erik Østby:
Appendix 1: POTTERY BY FIND CONTEXTS

In this concordance, the catalogued pottery from the temple sector is listed by the groups of stratigraphical contexts (as presented in section ii, Nordquist). The sherds are grouped according to their catalogue numbers, following the organization of the catalogues (sections iii, Voyatzis, and v, Hammond), but their find numbers, indicating their precise find contexts, are included in the first column.

Cella trench: grid squares B1, C1, D1
