Appendix 2: CONCORDANCE WITH TEX NUMBERS

This list provides the necessary references from the so-called Tex numbers, given to small objects (other than pottery) during the preliminary registration, and relates them to other numberings: find numbers (for these, see a separate list, Appendix 3), catalogue numbers, and official inventory numbers in the protocols of the Tegea museum. The storage of the objects is organized according to the Tex numbers. For further information on the objects the catalogue section **vii** (Voyatzis) should be consulted; or, for the stone objects with catalogue numbers beginning with **St**, the catalogue in *Tegea* II, section **x** (Bakke-Alisøy).

Tex numbers (up to 919) not listed below concern objects from the northern sector, and can be found in a similar concordance in *Tegea* II (Appendix 1).
