# Efficacy of antibiotic treatment in patients with chronic low back pain and Modic changes (the AIM study): double blind, randomised, placebo controlled, multicentre trial

OPEN ACCESS

In this paper by Bråten and colleagues (*BMJ* 2019;367:15654, doi:10.1136/bmj.15654, published 16 October 2019), an error was spotted in table S6 of the supplementary appendix, describing post hoc analyses. In the descriptive part of type 1

Modic changes, the numbers for the amoxicillin and placebo groups at 12 months had been swapped erroneously. A corrected appendix will be uploaded in due course.
