

Erik Østby:
Appendix 2: FINDS BY SQUARES AND SQUARE UNITS

Catalogued material from the northern sector (pottery and objects) is listed here by the proveniences: squares, and stratigraphical units. The stratigraphical situations are described in the sections **iii** (Luce; late layers), **iv** (Tarditi; ancient layers) and **v** (Ødegård: squares C9-C10 / D9-D10); the objects are catalogued and discussed in the sections **vii–viii** (Voyatzis and Iozzo; pottery), **ix** (Voyatzis; small objects), **x** (Bakke-Alisøy; stone objects, catalogue signature **StN**), **xi** (Tarditi; fragments of bronze vessels, **BrN-V**), **xiii** (coins; Ingvaldsen, **Co**), and **xv** (architectural material: Østby, **ArchN**). *Tegea* I has the catalogues of miniature pottery (**CN-Min**) in section **v** (Hammond), and of metallurgical samples (**MsplN**) in section **xiii** (Bassiakos), from the temple as well as from the northern sector.

Squares C5-C6		C6/30	CN-MinIII 16 CN-MinIII 17 CN-MinIII 18
Excavated by J.-M. Luce from 1991. Numbers of units are common between C5 and C6, and in some cases also C7.

Squares C6-C7		C7/50	
Excavated by J.-M. Luce from 1991. After 1993 stratigraphical units in C6 and C7 received a common number, but in many cases the individual square where an object was found was signalled in the documentation.

Squares C9-C10

Excavated by K. Ødegård in 1993, together with D9-D10. Many units are found in both contexts, but separate documentation of find-spots was kept.

Squares D9-D10

The units D9-D10/24 – /26 were excavated by J.-M. Luce in 1990. They are equivalent to D9-D10/02.

All other units were excavated by K.Ødegård in 1993. Most of them have counterparts, with separate numbers, in C9-C10.

Square E7

Partially excavated from 1993 by Ch. Tarditi. Most units were also found in E6, but they were numbered separately.
