

blood circulation  
 heart process  
 regulation of heart contraction  
 regulation of growth rate  
 cardiac muscle tissue morphogenesis  
 embryo development  
 single fertilization  
 body morphogenesis  
 positive regulation of growth rate  
 urogenital system development  
 blastocyst development  
 chordate embryonic development  
 regulation of protein metabolic process  
 cellular cycle arrest  
 cellular respiration  
 generation of precursor metabolites and energy  
 acetyl-CoA metabolic process  
 coenzyme catabolic process  
 tricarboxylic acid cycle  
 energy reserve metabolic process  
 cellular glucan metabolic process  
 cellular metabolic process  
 carbohydrate catabolic process  
 glycolysis  
 alcohol catabolic process  
 hexose catabolic process  
 RNA catabolic process  
 carboxylic acid catabolic process  
 lipid oxidation  
 cellular lipid catabolic process  
 protein localization in mitochondrion
